## FINANCIAL AND COMMERCIAL.

WEDNESDAY, March 6-6 P. M. It was understood in certain circles to-day in Wall street that the administration of Mr. Lincoln had determined upon a policy which would render a collision with the secessionists absolutely impossible. Details are not known; but parties who ought to know have been heavy buyers of stocks for the past two or three days, and other circumstances corroborate the story. A despatch published in a New Orleans paper, and reproduced in our editorial columns, confirms it emphatically. We have rea-son to know that that despatch was sent from Washington to New Orleans by a leading merchant of this city, who has a house at New Orleans; and that the statements theremade were based upon information tained from Senators Seward and Crittenden. The favorite theory among the few who were to-day in possession of this intelli-gence was that Mr. Lincoln will receive the Comssioners of the Southern confederacy as representatives of the dissatisfied portion of the American people; that he will treat with them, and that in proposing something in the nature of a national convention he will agree that the forts shall cease meanwhile to be a source of irritation to the Southern people. As to the collection of the revenue, it is obvious, as stated in this morning's Herald, that in the present state of the law the thing is impracticable. If, therefore, the possibility of a fight about the forts be removedeither by their surrender to the Southern confederacy, or by their retention under charge of a sergeant and couple of men only-civil war would seem to be indefinitely postponed, and the prospect of a recovery of business very cheering in-deed. It was believed this afternoon, by persons not generally misinformed, that this solution of pending difficulties was actually settled. Stocks which fell heavily in the morning recover-ed their tone in the afternoon, and though the pressure of all kinds of stocks for sale the bears prevented any material advance in the market, prices were 1/2 to 3/4 per cent higher all round than they were at the first board. Business was quite active; some heavy orders were executed by commission brokers, apparently for the clique which, as we stated above, has been buying largely all the week. At the close the market was steady, and the quotations as follows:-Tennessees, 72 a 1/4; Virginia 6's, 74 a 76; Missouri 6's, 641/4 a 1/2; Canton, 14 a 15; Cumberland Coal preferred, 6 a 8; Pacific Mail, 83 a 84; New York Central, 76% a 77; Erie, 311/2 a 32; Hudson River, 441/2 a 45; Harlem, 151/4 a 1/4; do. preferred, 383/4 a 39; Reading, 411/4 a 4; Michigan Central, 551/2 a 3/4; Michigan Southern and Northern Indiana, 15 a 1/2; do. guaranteed, 341/4 a 35; Panama, 1141/4 a 115; Illinois Central, 773/4 a 78; Galena and Chicago, 693/4 a 70; Cleveland and Toledo, 33 a 1/4; Chicago and Rock Island, 57 a 1/4; Chicago, Burlington and Quincy, 70 a 74; United States 6's (1881), 90% a 91.

The Chicago Democrat of March 2 says:—
The Himois Central line singly delivered nearly ten millions of bushels of grain last year. In the two months of January and February it has sent about three millions of bushels of grain to the Southern markets. If England is a purchaser through this season some better informed journalist than the writer in the London Tomes may discover that the grain produced upon the line of the Illinois Central atone, and which is almost selely due to the building of this road, has a most important bearing upon the price of breadstuffs in Liverpool. The quantity of grain this road is able to throw into the market, comparatively small as it may be compared with the entire bulk imported into England, is, nevertheless, potent to keep prices down, in years of scarcity, below the famine point. In its revilings of this great enterprise let the Times give it credit for at least this one service to the people of Great Britain.

The New Orleans Picanume of Wednesday last people of Great Britain.

The New Orleans Picayune of Wednesday last

thus notices the money and exchange market of that city:-

that city:—

The money market showed increasing signs of activity, and some round negotiations of paper were made at 12 per cent, letting down occasionally to 10 at 10 a a very choice piece, and going up to 15 for signatures equally as good, but less generally known. The offerings of really desirable names are quite small, and should the impression of an early settlement of political differences become general, there will be a great sarcity of the right kind of investments. In other words, the surplus of unemployed means is far more than ample to take off all the good stoff that can be had. One grain of confidence will bring out one hundred grains of capital. The stock market continues to be favorably affected by the return of a better feeling. Foreign exchange was again firmer, but the offerings being light transactions were limited. Stelling was done at 104 a 104%, and drafts, with bill of lading, at 108 a 103%. France, 5f.42% a 5f.40, and the whole range from 5f.60 a 5f.40. Sixy day bills on the North are dull, but there are scarcely any prime names offering. Sight was in good request at 1 a % discount. Bankers checked freely at ½, and the banks ask ¼ a ¾ at the counter.

The Chicago Tribuse, under date of Saturday.

The Chicago Tribune, under date of Saturday

evening, remarks:—

The money market is abundantly supplied—far beyond the present wants of legitimate business. The prospect of an early opening of navigation becomes better every day, and the large surplus of currency which the banks have been carrying so long wit ind active employment. The canai is to be opened on Monday, and heavy receipts of sorn may be expected from the lilinous river, and in three or four weeks the spring business will be fairly commenced. Indeed should the south winds and the weather continue another week or ten days, we shall expect to hear that the Straits are open Exchange declined to seven per cest to-day and was dull at that. The banks paid customers 6½, but few were willing to pay outsiders above 6 per cent, and 5½ was probably all that could be obtained for round lets

The St. Louis Republiscan of the 2d inst. says: evening, remarks:-

The St. Louis Republican of the 2d inst. says:-We have no change to note in money movements, which are quiet, as usual. Atthough Eastern exchange is reported as still eight per cent premium in Chicago, the rate here has not advanced beyond 5½, at which, however, it is firm. New Orieans sells at the same rate. The transactions are in bankable funds. Ourrency at discount of 1½ to two per cent.

At Cincinnati, says the Gazette:-

At Cincinnati, says the Gazette:—
There was a pretty full demand for money on Saturday, but the supply was equal thereto and the market continued easy for first class paper, while for names that were not up to No. I standard it was close as heretofore. We quote 10 a 12 per cost for prime paper, and 8 a 16 for call loans. There was a good demand for Eastern exchange, but the receipts were fair, and the market, with most of the houses, was easy at quotations. Nothing over 10 premium was paid for New York, while considerable was purchased at 47.8. Transactions in New Orleans continue on a limited scale at par buying and % premium selling. There was a demand for Western uncurrent money in excess of the supply, and the market was better, closing at an advance of I per cent for Illinois and Wisconsin, which we now quote at I discount.

BERF CATTLE.

In view of the cooler weather now prevailing, combined with the fact that the receipts during the week have been moderate, the market at the very commencement presented a different aspect, there being a tolerably active inquiry for all kinds, under which holders were enabled to obtain somewhat of an improvement in prices. The average quality of the offerings was full as good as last week, and there was a fair proportion of prime bulcoks at all the different yards. The number of inferior cattle was very small, and we heard of no sales at the extreme low rates quoted last week, and only a few sales at uncer 6%c. per pound. The general seeling prices were from 7%c. a 9c., and the greater proportion of the stock sole at about 8%c. The purchases on Tuesday were not so numerous as usual, and a larger proportion of the supply was left for to day's sale. We do not quote any very marked change in prices, but buyers generally are confirmed in the opinion that they did not procure their supplies on such good terms as they did last week, in consequence of the greater discrepancy in the estimates of weight. There were a large number of Brooklyn butchers in the yards to-day, and almost the entire number in that city now procure their supplies from the Washington drove yards. At Bergen Hill the market closed firm.

MILCH COWS.

The market remains steady without noticeables changes and the number offered were sold. The market closed firm.

MILCH COWS.

MILCH COWS.

The market remains steady without noticeable change in prices. For prime blooded stock the demand continues fair, and sales are effected at very full prices. The Long bland milkmen are the largest purchasers, and have taken the bulk of the supplies at all the yards at our range of quotations above. It may be well to remark, however, that only a very small proportion sold at the lower prices.

lower prices.

YEAL CALVES.

There has prevailed a tolerably active demand for yeal calves of good to prime quality, which have sold readily at from 6c. a 7c. per pound, and a small proportion of the very best sold at 7%c. Common quality have been in limited inquiry, and our quotations above are barely sustained. Inferior grades are dull, but being in light supply, brought prices full as high as instructions, and there were none left when our reporter left the yards.

week, and there were none left when our reporter left the yards.

SHEEF AND LAMES.

The buoyancy which pervaded the market for sheep and lambs hast week was manifest to-day, and with a continued activity in the demand for good grades holders were enabled to obtain satisfactorily remunerative prices. There are but few lambs arriving now a days, and these are readily taken by butchers for the hotels, which are about the best customers to be found. Extra fat sheep are also active, and the bulk of them were taken at from \$5 a \$6 50 per head, though there were occasional sales at more extreme rates.

WINE.

The demand for swine during the past week has been irregular and prices have fluctuated somewhat, closing steady, however, at our quotations above, which show a decline of \$\frac{1}{2}\$C. per pound.

SPECIAL NOTICES.

At a MEETING OF THE CLERKS AID SOCIETY. held at their rooms in the Cooper Institute, March & 1861, the following resolutions were, or motion, unanimus adopted:—
Resolved, That this Society is under the deepest obligation to K. J. DeCordova. Eq., for the magnanimous manner in which he responded to our call by giving his humorous and instructive lecture on "Money," at dinton Hall, February 28, 1861, for the said of the merchants' clerks out of employment, the proceeds exceeding our most sanguine expectations.

Resolved, That in tendering our sincere thanks of R. J. DeCordova, Esq., for his valuable and gratuatous services on the above named occasion, we do but express the feeling of gratitude of the many young men who have thereby found assistance and relief.

Resolved, That a copy of these resolutions be forwarded to the New York Herald and Times. HENRY KAYSER, Fres. Lawis Levison, Secretary.
